- SAP Business Objects Partner
- First SAP Certified Enterprise Support Partner
- More than 1,000 SAP consulting resources globally
- More than 600 satisfied customers worldwide
- Impressive client references
- Special Expertise Partner status for the Retail Sector

CIBER Flex: A fully hosted and managed SAP All-in-One mid market solution by CIBER

With the subscription-based hosting solution delivered by CIBER, running your SAP software couldn't be easier. SAP Business All-in-One solutions best fit the needs of midsize companies looking for comprehensive, integrated industry solutions to power their business end-to-end. Now available on a subscription based hosting basis, SAP Business All-in-One offers a single business software solution to help midsize companies manage everything from financials, human resources, procurement, inventory, manufacturing, logistics, product development and corporate services to customer service, sales and marketing.

This attractive and newly launched service enables you to run SAP Business All-in-One the easy way, without major up-front investment, by paying as you go, turning your software acquisition into an operational cost rather than a capital investment.

The comprehensive CIBER Flex package comprises:

- **SAP Business All-in-One** – powerful software based on best practices and designed specifically for midsize companies, with CIBER's 'optimised' solutions.
- **Hosting and infrastructure management, application management, and support** from CIBER. CIBER's SAP support team can be at your disposal 24/7, allowing you to concentrate on your core business activities.
- **Flat subscription fee** – All that for a flat monthly fee for as little as **\$400 per user per month**. All of the costs associated with implementation, operation and management of the SAP solution are combined into a single monthly or quarterly subscription fee.

Business Benefits

- Fixed Price, Fixed Scope, Fixed Time, Investment Protection all costs associated with using and managing the SAP software are combined into one simple subscription based monthly payment making it far more predictable for you to manage your ongoing cash flow.
- Reduce your up-front capital costs associated with traditional software licensing and hardware provisioning, through a subscription-based deployment model.
- Avoid the need to hire IT staff to manage and support software and the underlying IT infrastructure as a result of third-party hosting.
- Achieve the flexibility to purchase and deploy SAP Business All-in-One based on your own financial and IT preferences because of a variety of licensing and deployment options.

Would you like to take advantage of SAP Business All-in-One without making an up-front capital investment or expanding your in-house IT staff? Choose the subscription based hosting option – Flex, which lets you access SAP software that is fully hosted and managed by CIBER.

SAP Business All-in-One

Affordable monthly fixed cost from as little as \$400 per user, per month.
